CREATIVE + TECHNICAL PROFILE

MUHAMMAD SARDAR BALOCH

WEBSITE DESIGNER & DEVELOPER | LOGO DESIGNER

PROFESSIONAL SUMMARY

Entry-level website designer and developer who uses AI-assisted tools as part of the build workflow. Creates website demos and page layouts, makes revisions to match project requirements, and also develops logo concepts and brand visuals. Interested in contributing responsibly to suitable remote, junior-level, or project-based work.

WHAT I CAN CONTRIBUTE

WEBSITE DESIGN & DEVELOPMENT

- Modern business website layouts
- Responsive pages for mobile and desktop
- AI-assisted builds and refinements
- HTML/CSS/JS edits as required

LOGO & BRAND VISUALS

- Logo design concepts
- Simple, clean brand visuals
- Visual options based on a brief
- Agreed final assets prepared for handoff

PORTFOLIO & DEMO WORK

- **8+ Website Demos**
  Created website demo projects using AI-assisted development tools. Screen recordings can be shared separately to show the visual design and page flow. These are demo projects and are not represented as paid client work.

PROJECT HANDOFF & COLLABORATION

Code delivery: I provide the completed website source code/files to the company or client, according to the agreed scope.
Hosting & launch: Domain setup, hosting, deployment, and ongoing live-site support can be handled by the company or client. These responsibilities are agreed before a project begins.
Project approach: I follow the brief, communicate progress, and make agreed revisions within the project scope.

HOW I WORK

01 | ALIGN
Understand the brief, goals, and agreed scope.

02 | BUILD
Create the pages and refine agreed details.

03 | HAND OFF
Provide source files; company/client handles launch.

Available for suitable junior-level, remote, and project-based opportunities.
